Aaron, in your last acting role, would you be willing to push along
the NOA pkg with a heads up message that Michael has drafted
below and a phone call to let folks know we need it finalized by end

out by mid-Dec. Mike

NOA FEIS pkg

Mike -

See below for names and phone numbers.

A draft message might simply

note that we need the GGNRA dog plan FEIS NPS NOA package surnamed as soon as possible; we are aiming for November 30, but if that's not possible, then hopefully no later than Dec. 5. We are looking to publish the FEIS by Dec. 9, or at latest December 16, which will give

us only 2-3 days to sign the ROD and publish the final rule before the administration changes. It might also help to note that Director

Jarvis has directed us to publish this no later than midDecember.

Thanks.

Hi Alan,

Any updates on the GOGA NOA? We're aiming to file the FEIS with EPA on Dec. 2 for a Dec. 9 publication date, so just want to confirm the NPS NOA is moving along.

Thanks,
Michael
