---

Dear Becky, Amy, and Neal:

You're marvelous friends - thank you so much! These actions will be hugely important in the next phase, as the draft Rule is completed and released for comment. Let's stay in touch ...  
Howard

Subject: Thank you for the meeting

Dear Dan,

Thank you for meeting with us for an informative session about the pending GGNRA Dog Management Plan.

You told us that the Leader's Office is receiving many comments from opponents to the Plan.

- In the future, you will hear more from the stakeholders who support the Dog Management Plan.
- Our organizations will continue to educate the public with significant scientific and factual information supporting the balanced NPS decision-making as the misinformation campaign is waged by those that simply oppose regulation. We'll provide key points for your use, such as what we shared with you regarding debunking the "less than 1% of GGNRA for dog walking" claim.
- Our organizations will encourage a maximum comment period on the SEIS - from 60 to 90 days.
- The celebration of all forms of recreation as part of the NPS Centennial and seek people "without baggage? is an excellent

idea and we will explore possibilities to implement this suggestion.

- When the Plan process is done we'll seek ways to celebrate what is being permitted here and nowhere else.
- We'll assist the NPS in enlisting as many different stakeholders as possible to help implement the Plan.

Dan, thank you very much for your time and attention to this complex matter.

Best regards,

Amy Meyer  
Becky Evans  
Neal Desai
